Abstract (en)

[origin: EP0907008A1] The device incorporates a drag lever (3) and projections (11,11') for tool-free positioning of the lever on the valve shaft (9) and a gudgeon in the transverse direction of the lever, on the cylinder head (1). The projections are at a distance to the sides (10) of the lever. A stop rib in the longitudinal direction of the lever, connects the valve shaft-sided stop webs (6) of the lever, together with a further projection (13) on the cylinder head next to the gudgeon.
