Abstract (en)
[origin: WO9738598A1] The present invention provides a disposable glove (10) which readily fits and conforms to wearer's hand. The glove (10) includes a front panel (160) and a back panel (170) joined together to form an opening in which to insert a hand. The extension force of the back (170) panel is preferably less than the extension force of the front panel (160).
