Abstract (en)
[origin: EP0911013A1] A telescopic column (5) is positioned on a base, in the form of a plate (2). A table top unit (9) is attached to the top of the column by means of a spindle drive (17,18,19). The column or table top unit has a strap (24) for lifting or lowering the person placed in front of the standing desk. The column is raised and lowered by a drive mechanism. The table top unit is horizontally movably mounted by means of an electric drive mechanism (19) by the person (P) standing.
