Abstract (en)

[origin: EP0913546A2] The operating fitting (1) for a hollow profile (7) of a swing frame (9) has a housing (13) inserted at least partially into an opening at the hollow profile (7). It has at least one limit stop for support at the outer side of the hollow profile (7). The housing (13) has at least one mounting strap (31) for a support at the inner side (47) of the hollow profile (7) and also to hold a mounting.
