Abstract (en)
[origin: EP0913641A2] The combustion chamber (4) has a temperature resistant wall (1) comprising an outer ceramic heat insulating wall plate or layer (10) and a separate inner high temperature resistant structural ceramic wall plate (11) which shields the outer wall plate (10) from the combustion chamber interior. <??>A combustion chamber (4) has a temperature resistant wall (1) comprising an outer wall plate or layer (10) of ceramic heat insulating material and a separate inner wall plate (11) which consists of high temperature resistant structural ceramic and which shields the outer wall plate (10) from the combustion chamber interior.
