Abstract (en)
[origin: EP0914020A2] The loudspeaker (10) comprises a flat membrane (11) with a small installation depth and a large lift. The side of the membrane, facing a drive system (12), is equipped with support devices (19) which extend along a central axis (16) of the loudspeaker towards the drive system. A centering membrane (18.2) is connected with an end (20) of the support device, which is averted from the flat membrane.
