Abstract (en)
[origin: DE19818301A1] The holder is designed to be fixed on a normal tile (1) made of clay, concrete or plastics. It comprises an inverted U-shape fixing a console bracket (2) which rests with the two U-arms (2a,2b) on the tile. A counter-plate mounted under the tile is connected to the fixing console and its surface facing the underneath of the tile is formed at least in part complementary with the profile of this underneath surface. The counter-plate consists of a foundation profile (4) and a profiled body (5) mounted between its top side and the underside of the tile.
