Abstract (en)
[origin: EP0915237A2] The system has a cooling water pump (2) with a suction-side housing (1a) which is formed in one piece with the thermostat housing (1b). On a connecting part (18) for the heating back flow a flow deflection stirrup (19) is formed in one piece, which partly surrounds the thermostat (5). A retention for the thermostat is formed in one piece with a bearing part (4) for the cooling water pump.
