Abstract (en)
[origin: EP0915305A2] The support member (1) holds the evaporator (2) and the condenser (3) as well as heat exchangers for the transfer of heat to the room radiators. The support member has detachable connections (6,7) which connect to lead and return connections of the evaporator and condenser. The support has the form of a hydraulic board which can slide within the chamber. The housing (13) also contains an expansion chamber (14).
