Abstract (en)

[origin: EP0915459A1] Apparatus for exposing an image recording medium, the apparatus comprising a radiation source (53); a routing device (76) comprising an input arranged to receive radiation from the radiation source, and a plurality of imaging outputs (54,55), wherein the routing device selectively routes the radiation received at the input to a selected one of the imaging outputs; and means (56,58) for directing the radiation from each imaging output onto the image recording medium to expose the image recording medium. <IMAGE>
