Abstract (en)
[origin: EP0916784A2] The appts. To measure a door, its length and angle, is a measurement square (1) with legs of unequal lengths. The square (1) is placed against the door (T), with hinge fittings (3) at the longer and vertical leg (2) to be inserted at the door strip (B) fitted to the door socket. The shorter horizontal leg (4) has the extending section (5) of the vertical leg (2), with a length measurement scale.
