Abstract (en)  
[origin: EP0919153A2] The key holder (1) has a body (2) with two thin lateral walls (3,4) and a thin base (5). A half cover (6) pivots on one end of the walls and covers part of the upper opening. The keys are held on a U-shaped rod (13) at the front of the body. Elastic elements inside the body immobilize the keys. A bar (19) under the rod, retains the keys.
