Abstract (en)

[origin: EP0919168A2] The arrangement has hanging eyes (14) at intervals near the upper edge of a decorative strip (13). A prefabricated textile band (11) is applied to the rear side in the vicinity of the upper edge of the decorative strip. The decorative strip is cut away inside the eyes. Covering rings can be removably placed on the eyes from the front to cover the eyes and the cut edges of the decorative strip. An Independent claim is also included for a method of operating the arrangement.
