Abstract (en)

[origin: EP0919478A1] The box has a cover part (20) and a lower part (30), each with two first tabs (22,32) and two second tabs (24,34), extending to the opposite edges of the base surfaces (21,31) of the cover and lower part respectively. The first and/or second tabs of the cover part and/or the lower part have dust tabs (26). These are fitted in the end region of the tabs so that there is at least one dust tab in each corner region of the box. Their overall height in the corner zone of the box is roughly equal to the internal height of the box.
