Abstract (en)
A system for moving one or more animals towards a point of slaughter comprising confinement means (1,2) for confining the animals in a raceway; and an urging device (7,8) having a) an open position in which the animal(s) can move along the raceway past the urging device, and b) a closed position in which it extends across the raceway to prevent following animals from moving along the raceway past the urging device and in which it can be expanded to urge the animal(s) which have already passed it towards the point of slaughter. <IMAGE>
