Abstract (en)

[origin: EP0920823A2] The seat part and base are joined by a link (10) through which protrudes a support (22) whose top end is fixed to the seat part (40), and which has a side cantilevered part (221) fixed to the link. The link elements comprise a bottom link element movable on a support surface of the base part (50), and a top link element movable on a support surface formed by the upper side (52) of the bottom link element.
