Abstract (en)

[origin: EP0921299A2] The container (4) with the unit (2) are insertable in the fuel tank (1) by a tank insert closure (9) fixable in a tank flange (8). Between the cover (5) of the container and the tank flange an elastic bellows component (10) is arranged. A spring (11) presses the bellows component on the cover and against the tank insert closure.
