Abstract (en)

[origin: WO9805417A2] A dispensing machine comprises a product dispensing station with a dispensing head comprising a first distribution centre in which a plurality of nozzles converges, one for each of the products of a series of products to be dispensed and at least a second distribution centre in which is converging a second plurality of nozzles, one for each of the second series of products to be dispensed. The second distribution centre is provided either on the first dispensing head or on a second dispensing head distinct from the first one.
