Abstract (en)
[origin: EP0761123A1] The packaging has a reservoir (5), holding the product (6), and is closed by an applicator with a flat handle (7). The shape of a wiper (19) is complementary to the shape of the bristles (11) of the applicator. The bristles are implanted parallel to the plane of the handle. The width of the free end of the bristles is at least equal to a quarter of the arc of the eyelashes. The bristles are wiped by a wiper (19) with reliefs (31) on its inner wall (23) to form a depression in the reservoir during the removal of the applicator.
