Abstract (en)  
The invention relates to a container consisting of three surfaces (1, 2 and 3) which are disposed joined in a perfectly superimposed manner, two of which (1, 2) are secured to one another in the position of their edges, whereas the third (3) is secured only on three edges; a photographic print (5) or the like can be accommodated inside the said container. One of the three surfaces (1) consists of transparent material, the second (2) is a frame, whereas the third (3) has printed on it, on its surface which faces exterior, the form for the postal address, which is normally present on picture postcards. <IMAGE>
