Abstract (en)  
[origin: EP0924725A2] The electrical contact system has a pair of fixed contact pads (22) and these are engaged by contact pads (15) mounted on a contact bridge (10). One of the movable contact pads has a plain round section . The other pad is of the same size but has a surface formed with two contact surfaces (19,20) with a groove (21) This aids mechanical stability.
