Abstract (en)
[origin: EP0924957A2] The contacting arrangement has a panel with a core layer and upper and lower outer layers (12.1,12,2) connected to opposite core layer surfaces and at least one drive system connected to the panel and, via two cables, to a sound signal source. At least one of the two covering layers and/or the core layer have conducting regions (17.1,17.2) which are connected to the cables to the sound signal source and to the associated connections (25) of the drive system.
