Abstract (en)
[origin: FR2765902A1] The invention concerns a method for the installation of a pavement kerb (10) whereof at least one face (12, 14, 16) comprises a reflecting surface consisting at least partially of a layer of juxtaposed transparent spherical balls (18). The method consists in casting a material such as concrete on the site where the kerb is to be installed, in moulding the kerb to give it its final shape, in casting the balls on at least one of the kerb surfaces, and in inlaying the balls in the material on the face designed to be reflecting.
