Abstract (en)
[origin: EP0925749A1] The washing line especially for hanging underpants has, in the middle of the hanging line (1) hooks (2), and on the outer end of both support lines (1a,b) there are shaped grippers (3). On the inner space (7) of the connection part (6) there is a guide bridge (8) which reduces the free space in the inner room. The collar (15) for the clamp of the underpants (14) is held in the right-angled longitudinal extension of the support one pillow. In the inner space of the connection part, an outer guide stairs is situated on the external guide stairs so that between this and the first inner guide stairs there is a 1-2mm clearance (21). The clearance between the inner guide stairs (8) and the external guide stairs (9) is small.
