Abstract (en)

[origin: EP0926079A2] The packaging comprises an internal container (1) containing the liquid or powder with a sealable emptying orifice (10). An external rigid shell (2) encloses the container. The shell is made in two parts (21,22) which are assembled in a removable manner and able to be locked. One of the parts (21) has a recess (20) which engages with the container emptying orifice to enable distribution of the product.
