Abstract (en)

The clasp consists of first and second members (1, 2) connected to the two ends (5, 6) of the bracelet, a third member (3) which is articulated to the first two, and a bracelet length adjuster with a movable pin or screw (35) which can be set in one of a number of transverse holes in the first member of the clasp and a hole in the third member. The clasp also has a cover (4) which is attached to the first member and has two sides, of which at least one covers the transverse hole. The first clasp member (1) has two transverse pins or screw (35, 36), one connected to the first end of the bracelet, while the third clasp member can be connected to either pin.
