Abstract (en)

[origin: EP0928581A2] It is a portable, foldable seat, very simply made, which allows to sit everywhere giving great support to the back, as it allows an ergonomically correct position to the spine. The orthopaedic seat is made of textile or other industrial material with similar aim folded in an L-shape which lets elements of various. material be inserted or taken out in order to arrange for the support and the push to the lumbar region.
