Abstract (en)  
[origin: EP0928873A2] The invention relates to a building comprising wooden structural members (1) which are exposed to the environmental atmosphere. The wooden structural members (1) are provided with vapour-permeable mineral wool elements (2) to protect the wooden structural members (1) from the environmental atmosphere. The wooden structural members (1) are at least partially free of paint work and the mineral wool elements (2) are applied directly onto the untreated wooden structural members (1). <IMAGE>
