Abstract (en)

The support (1a,1b) is made in one piece and has cylindrical holes in the top in which toys (30,31,32,33,34) are held. It has a flat base with a longitudinal groove which locks elastically on the upper horizontal bar (18) of a cot. This keeps the toys mainly straight.

Abstract (fr)

Module (1) de support d'objet, notamment pour le domaine de la puériculture, caractérisé par au moins un moyen de support (3) adapté à recevoir un objet (30,33,34,53,54,56,71,91) et coopérant avec des moyens assurant la stabilité en rotation dudit module de manière à maintenir sensiblement droit ledit objet. <IMAGE>
