Abstract (en)

[origin: EP0930458A2] The shaped light fitting has a frame in the shape of the desired figure, and a number of lamp holders on the frame, each for one lamp. The frame has a number of fixing blocks (22) projecting from its surface, each with a through aperture (26). The lamp holders each have a projecting clip (33) on the surface, by which they can be fitted in the apertures in the fixing blocks to fix the lamps on the blocks. The fixing blocks may be cylindrical with a flat surface. The clip on the lamp holder may project from it at a right angle.
