Abstract (en)
[origin: EP0930804A2] The present invention relates to electrical cables - such as heating cables - having at least one insulated wire conductor (1) - such as a resistance wire terminated with 'cold' wire ends - and at least one earthing conductor (3) arranged within at least one common outer layer. The at least one earthing conductor (3) is arranged within or in contact with a semiconductive layer (4). <IMAGE>
