Abstract (en)
[origin: EP0931567A2] The invention relates to a safety device against avalanches, comprising a support (1), generally fastened to a trekking backpack, provided with means (2) for fastening to a user of the device (10), an inflatable balloon (3) and related means (4) for inflating the balloon (3), as well as extendible fastening means (5) interposed between the support (1) and the balloon (3), able to allow the balloon (3), once inflated, to rise freely whilst remaining attached to the support (1). The device (10) further comprises preferably an inflatable cushion (9) having at least two arms (12) with lateral development with respect to the user's body. <IMAGE>
