Abstract (en)
[origin: EP0931571A1] Snow shoe consists of a frame (2) e.g. of metal tubing (8a, 8b), and a inner mesh layer, e.g. of textile, plastic or composition material. It also has a central base element (15) of a rigid material such as aluminium or plastic, fixed to the frame and situated in a horizontal plane below that of the mesh layer.
