Abstract (en)
[origin: EP0933205A1] A printing master 12 is disclosed which comprises a printing element and a base 33, characterised in that said base 33 is provided with one or more strain gauges 31 and means for electrically connecting said strain gauges to a device for measuring electric resistance. In a preferred embodiment, said printing element is a plate having a printing surface 35, of which the back side 37 is laminated to base 33. The printing master 12 may comprise an optional adhesive layer 36 and/or protective layer 32. The registration of the printing master can be adjusted conveniently and accurately by measuring the resistance of the strain gauges. <IMAGE>
