Abstract (en)

[origin: FR2754993A1] The invention concerns a support for presenting documents or the like comprising: a back arranged for providing a central support (7) for the back of the documents, projecting between two lateral clearances (8); and two lateral pressing elements (15) borne by one or more clips (11) extending, in the absence of documents, inside the lateral clearances (8), such that documents placed between the central support (7) and the lateral pressing elements (15), have a convex curve from one vertical edge to the other.
