Abstract (en)
[origin: EP0936312A2] The footbridge or traffic bridge structure, such as for installation over and/or under roads, has a section (1) composed of a number of planks, bonded by lateral members (2) with handrails and/or an upper level (3). A lateral member (2) is at least partially in a box profile. A side cladding is clamped between the lateral members (2). A tie rod is between lateral members to link the lower and upper levels (1,3).
