Abstract (en)
[origin: EP0937828A2] A tap, especially a single hole mixer unit for rinsing surfaces, comprises a connection opening (11) for the water supply and at least one housing (1) with an outlet. The tap has a metal pipe (2) connection with an O-ring (4) seal. Each connection opening has an annular groove (12) and one or more pockets with support shoulders. A clip ring acts as an axial safety element and is located on the pipe. The end face has one or more radial tongues (32) which carry a radial projection.
