Abstract (en)

[origin: EP0938102A2] The present invention relates to high voltage direct current (HVDC) cables and to subsea installation of such cables. It further relates to a HVDC power cable including a central conductor (1) and insulation layers (2) covered with a metal sheath (3) such as a lead sheath as well as outer armouring (8) and corrosion protection (9). The cable includes a concentric return current conductor (6) arranged between the metal sheath (3) and the outer corrosion protection layers (9). <IMAGE>
