Abstract (en)

[origin: US6234366B1] A medium dispenser (2) includes an electric drive (30) and a mechanical lock (23) which is operated by the electrical drive (30) in response to a timed schedule stored in a memory device (36). The electric drive (30) and associated parts may be removably inserted into the medium storage portion of the unit (1). An indicator (40) is provided to signal the user through a visible or audible signal, or both, when the dispenser (1) is available for dispensing operations.
