Abstract (en)

[origin: EP0939168A2] In the space in front of the support wall (1) a ready-made plate (6) is placed on foundation piles (5). The gap (10) between the support wall and the ready made plate is filled with concrete (11). The earth anchor (12) is fitted through holes in the ready-made plate and through the support wall and tightened against the ready-made plate.
