Abstract (en)

[origin: EP0940223A2] The template (1) is made of metal to be directly placed on a glass pane. the template and glass are subjected to sandblasting so that the surface is matted by the abrasive effect of the sand. The template can be made of plastics, wood or a similar material. The glass can be flat or hollow and can be a mirror surface. The template can be used also for wood, plastics metal or leather.
