Abstract (en)

[origin: EP0940527A2] A movable structure (10) easy to assemble, disassemble and transport, suitable to provide an emergency toilet, for instance in habitations wherein works of re-structuration or restoring of the existing ones have been started. It comprises a possible base (11) covered with anti-slip material, associated to profiled uprights (12,121), peripheral walls (13) from polycarbonate slabs or the like, fixed to or fitted in the uprights (12,121), and a standard door (14), laterally sliding and/or bellows-like foldable, hinged to at least one of said uprights (12,121) or suspended from a rail hanging between the uprights(12,121). A covering element (15) closes the structure (10) on the top, by fitting in the uprights (12,121), in special seats (16). <IMAGE>
