Abstract (en)

[origin: EP0942108A1] The modular element comprises a flat element (90) and an enclosing frame (100) consisting of connected frame battens (200). The enclosing frame or the individual battens have an edge projection (24) only on one side, running transversely from the free edge (234) of one of the side flanks (23) along the longitudinal recess (20) to the interior or center of the frame. The enclosing frame lies flat around the flat element it encloses.
