Abstract (en)

[origin: EP0942253A2] The spray device comprises a water container (1) with a piston/cylinder unit (4) fitted to it. A suction hose (20) extends from the unit to the bottom of the container, and a water spray hose (17) protrudes out from the unit. The child pumps the piston (6) up and down inside the cylinder (5) to force water out through the hose.
