Abstract (en)

[origin: EP0945250A2] The machine has three cylinders. These are an upper grooved cylinder (4), an intermediate grooved cylinder (5), and a lower grooved cylinder (6). A polished pressing roller (16) is included together with an adhesive applicator (13). d cardboard (19,30). The three cylinders are used together to produce a band of corrugated cardboard and are arranged between lateral side plates (2,3). The components work simultaneously to form two bands of corrugated paper (9,25) and two bands of covering paper (14,27) so as to form two bands of corrugate
