Abstract (en)
[origin: EP0947321A1] The arrangement has a dusting device which acts on one side of the printed product and a sheet feeder with an integral suction system (19) consisting of a suction channel (14) and a sheet guiding surface (16) with a number of openings (15) communicating with the suction channel. The suction channel has a functional connection to an air suction source. The suction system is a single module.
