Abstract (en)
[origin: EP0947776A2] The front side faces away from the oven muffle, the back side faces the muffle, and there is a top side. Preferably the top part of the front side has a door handle (5). An air duct part has at least one air inlet on the back and or top side, and opens into an outer compartment on the front side, preferably in the top part in at least one air-outlet. The air flowing in through the air inlet is conducted beneath and past the door handle into an outer chamber.
