Abstract (en)

[origin: WO9831129A1] An attachment system for a mobile phone or the like portable communication means for temporarily attaching it to a belt or the like supporting surface. The system comprises an attachment member (14) fastened to the casing (12) of the portable communication means, and a holder to which said attachment member can be locked. The attachment member (14) comprises according to the invention a member forming a rim and is fastened to the casing (12) in the way that it surrounds the openings of the loudspeaker arranged there.
