Abstract (en)  
The present invention relates to a packaged product comprising a package having a liquid reservoir (2) for containing a cleaning product, and a means for delivering the product in a labour efficient way and in a uniform manner. This is achieved by a packaged product in which the means for delivering the liquid comprises an electrically driven pump (5), and further comprises a spray arm (20), the spray arm (20) having at least one dispensing opening (25). The spray arm being either extended or extendible. According to a second aspect of this invention a new use is achieved in which a cleaning product is applied to carpets and other floor coverings using a device comprising an electrically driven pump (5). <IMAGE>
