Abstract (en)
The printing machine, having a main printing group with two blanket rollers (2, 3), incorporates an additional independent printing group (20) situated before the main one in the direction of the paper's travel and allowing a motif to be printed in at least one color across the whole width of the paper before it passes to the main group. The machine also has a drying unit with UV lamps (27, 28) situated round the additional group's roller (21). The additional group can be used for offset, silk screen or heliographic printing.

Abstract (fr)
La machine d'impression, à la bobine ou à la feuille, de papiers-valeurs, en particulier de billets de banque, comporte un groupe d'impression principal. Elle comprend en outre un groupe d'impression additionnel (20) indépendant placé en amont dudit groupe d'impression principal dans le sens de passage du papier et permettant l'impression sur toute la largeur du papier d'un motif dans au moins une couleur déterminée avant le passage du papier dans le groupe d'impression principal. <IMAGE>
